PRESIDENT'S WORD

Dear Sugarmakers,

We hope you are getting through the health crisis safely and without too much financial hardship to your businesses.

This eventful year has prompted us all to reflect on ourselves as citizens and as entrepreneurs. These difficult times have brought us back to our basic values and our origins.

At Dominion & Grimm, these times have reminded us of our long and rich history and has motivated us to keep our heritage moving forward into the future.

The quality of our products, respect, integrity, innovations, and support for our customers have been the foundation of our values since 1881.

You are our "raison d'être", the center of our efforts and the source of our visions for the future.

When you choose our products, we want the quality to serve you for generations to come.

Whether you are a small or large producer, driven simply by pleasure or commercial goals, our relationship with you is based on respect and integrity to assist you in your passion to produce exceptional maple products.

Our traditional equipment coupled with new technology will allow you to produce syrup and maple by-products that will stand out. We continue to work to develop and manufacture products that maintain a balance between performance, economics and concern for the environment.

This year again, we are offering you new items and equipment that will improve your productivity.

We invite you to follow us on social networks to see the evolution of our innovations and discover our new products.

We wish you and your loved ones a year filled with health and syrup.

The Dominion & Grimm Team

A family business for 3 generations

ADVANCED VACUUM MONITORING SYSTEM

20 INCH SYRUP PRESSES WITH ELECTRIC LEVER

TECHNOLOGY AT THE SUGAR BUSH

ECO-FRIENDLY installation of the Ecovap 530 US gallons per hour electric evaporator. Superior **ENERGY EFFICIENCY** with only 2.1 kW per gallons of syrup.

The BRIX EQUALIZER modulates the Ecovap syrup draw off according to the BRIX degree to be reached. The BRIX EQUALIZER then automatically, continuously, and precisely balances the BRIX degree of syrup in insulated tanks before barreling. The equalizer **SAVES ON LABOR COSTS** and **MAXIMIZES PRODUCTION REVENUE.**

28 MEMBRANES LA MONTAGNE AUTOMATED OSMOSIS

The sugar bush is equipped with an AUTOMATED PH NEUTRALIZATION system that provides reliable, flexible, and powerful control for the treatment of wastewater discharged from reverse OSMOSIS and other wash water.

EVAPORATORS

A 18” X 48” WOOD EVAPORATOR

– Evaporator designed for 50 taps
– 18” x 48” flat bottom pan with 3 partitions for sap circulation and valve
– Included: burner box with **cast-iron** front, smoke stack and pipe
– Stainless steel woodfired arch set

B 18” x 8” preheating pan and valve

GALVANIZED OPTION AVAILABLE

C MODEL 94, WOOD BURNING STOVE

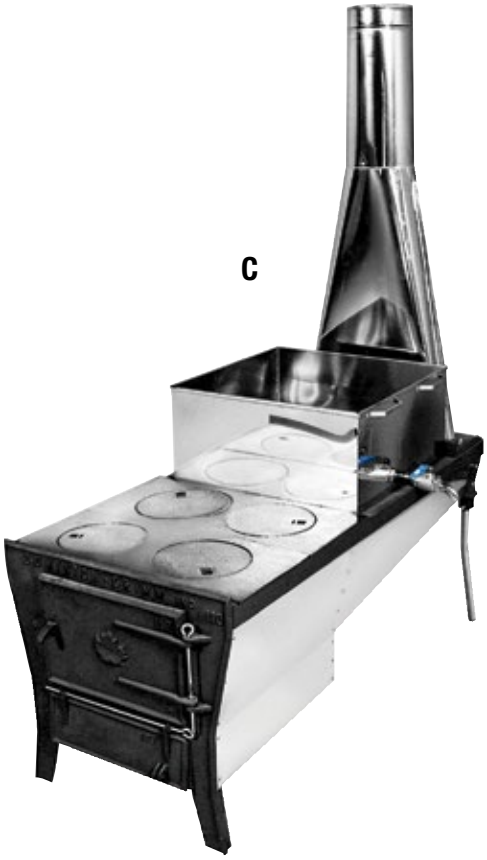
Designed for 25 taps, to cook in the cabin

Furnace model 94 width 26” x 48”

Includes :

– Stainless steel furnace with **Cast-iron** front burner box
– 23” x 23” flat bottom pan
– Syrup ball valve
– 2x 26” x 12” cast-iron plates with rimmers
– Smoke stack and pipe

GALVANIZED OPTION AVAILABLE.



MODEL 92 , WOOD BURNING STOVE (NOT SHOWN)

Designed for 20 taps, to prepare by-products

Furnace model 92 width 18” x 36”

Includes :

– Stainless steel furnace with **Cast-iron** front burner box
– 17” x 21” flat bottom pan
– Syrup ball valve
– 2x 20” x 12” cast-iron plates with rimmers
– Smoke stack and pipe

GALVANIZED OPTION AVAILABLE.

INSULATION ACCESSORIES FOR EVAPORATORS (NOT SHOWN)

090820 Refractory fire brick 8 $\frac{1}{4}$” x 4” x 2 $\frac{1}{2}$”, 2500˚F
090851 Refractory fire half-brick 8 $\frac{1}{4}$” x 4” x 1 $\frac{1}{4}$”, 2500˚F
090882 Refractory mortar 15 lb
090929 Refractory mortar 55 lb
090943 Soft fire brick (12 per case) 9” x 4 $\frac{1}{2}$” x 2 $\frac{1}{2}$”, 2300˚F
089657 Insulation board M Board Kaow 2’ x 3’ x $\frac{1}{2}$”, 2300˚F
089442 Insulation board Gard Pro 39 $\frac{1}{2}$” x 39 $\frac{1}{2}$” x $\frac{1}{4}$”, 1360˚F
091001 Insulation board KFAC 3’ x 1’ x 1”, 1900˚F
089435 Insulation tape $\frac{1}{4}$” x 2”t
157431 High temperature sealer for insulation tape 300ml0
268601 Ceramic insulation ribbon support

A WOODFIRED 2' X 8', FOR 250-550 TAP MAPLE GROVE

2' x 8' evaporator for a sugar bush of 250 to 550 taps.
Woodfired arch with one door, flue pan, and a syrup pan, float box to control the sap level in the pans, base stack and stack. Custom built to your needs.

SAP LEVELS FOR EVAPORATORS

B **080173** Glass tube for sap levels $^{5}/_{8}$" OD x 12"

080210 Full sap level 2" x 8"

C WOODFIRED 2' X 6' EVAPORATOR MODEL 700

– For a 150-400 tap maple grove
– The traditional woodfired evaporator
– First-quality construction, maintaining D&G's international reputation
– Sizes available: 2' x 6' and 6' x 16'
– Furnace also available in galvanized steel
– All our woodfired evaporator front sides and doors are made of **cast iron**
– Available with drop flue pans or raised flues
– One or several syrup pans (depending on model)
– Included: syrup ball valve, drain, stainless steel transfer fittings, float box, dial-thermostat, water-level indicator, stack, pipe and stack cover

Options:

085789 Plate 8" x 26" with rimmers

085819 Full plate 8" x 26"

D *THE SPORTMAN* 18" X 63" EVAPORATOR

– For a 50-200 tap maple grove
– Included: 18" x 45" pan, 18" x 18" syrup pan, float box, syrup ball valve, stainless steel plumbing fittings, thermometer, smoke stack and pipe
– Front side of the burner box made of **cast iron**, rather than steel
– Furnace also available in galvanized steel

Options:

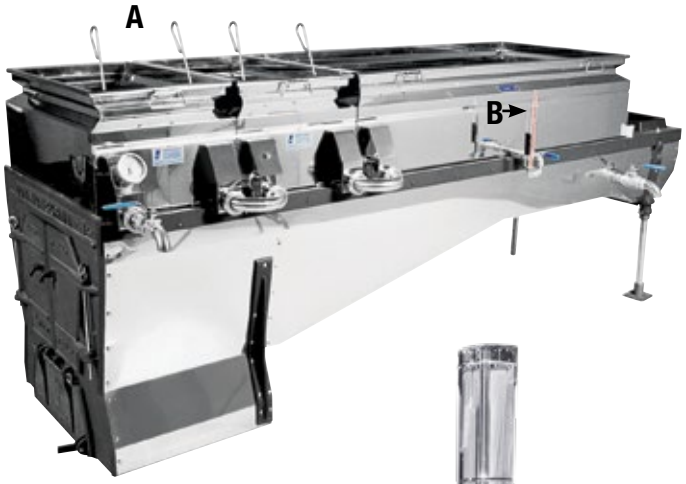
085727 Plate 8" x 20" with rimmers #136

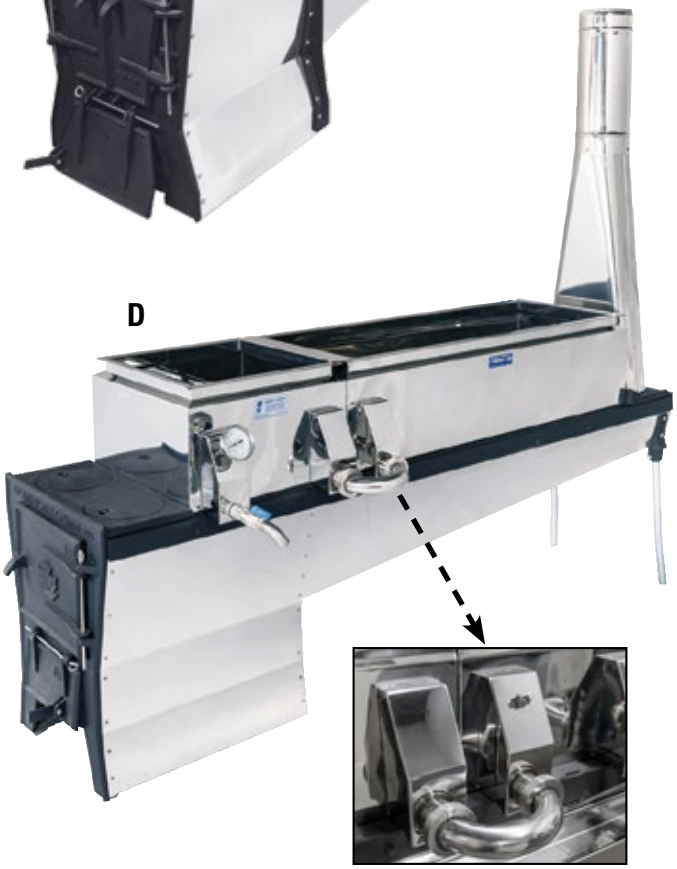
085758 Full plate 8" x 20"

085840 Rimmer Stove 6 $^{1}/_{2}$" #131

– Front part made of cast iron (18" x 12") for cooking and improved boiling rate

See options and accessories on pages 12 to 17





EVAPORATORS

NEW: AUTOMATION AVAILABLE

WOODFIRED EVAPORATOR WITH *AIRTIGHT* FRONT

- Woodfired evaporator with airtight steel door
- Improves boiling capacity by up to 15%
- Double-walled arch with an extra layer of insulation
- Blower system supplies air under the burning wood and from the front section of the unit
- Complies with California regulations
- Sizes available: 2' x 6' and 6' x 16'

TORNADO HIGH-EFFICIENCY WOODFIRED EVAPORATOR

Hot Air is channelled below the fire source through the double layered heated chambers found in the walls as well as the front and back portion of the arch. This multi-air injection source increases the wood combustion and maximizes gasification.

- Increased boiling capacity by 30%
- Lower your wood consumption by 30%
- Twin layer walls allows for the recuperation of heat from the combustion chamber and preheat the air injected in the main combustion chamber
- Double combustion chamber to gasify
- Air is injected in the combustion chamber at temperatures between 200° & 400°F
- Ultra-robust construction
- Fully automated models available

PREHEATS AIR UP TO 200°F - 350°F

THE MOST ROBUST WOOD EVAPORATOR IN THE INDUSTRY

2 VERSIONS:

- WOOD
- WOOD AND WOOD PELLETS

ENVIRONMENTALLY FRIENDLY

AIR INJECTION BETWEEN 200°F AND 400°F ALL AROUND THE PERIPHERY TO INCREASE COMBUSTION

30 % IMPROVEMENT ON THE BOILING RATE

SAVE UP TO 30% ON WOOD OR WOOD PELLETS

POSSIBILITY OF SWITCHING FROM PELLETS TO WOOD IN A FEW MINUTES (DUAL-ENERGY MODEL ONLY)

DOUBLE WALL SYSTEM THAT RECOVERS HEAT FROM THE COMBUSTION CHAMBER AND PREHEATS THE AIR INJECTED INTO THE FURNACE.

FEATURES AND EQUIPMENT INCLUDED

- High quality D&G knurled connectors

- Return set and plumbing completely made of stainless steel
- Smoke stack and cover
- 1” rigid insulation panels in the sides of the evaporator
- 3 layers of factory-installed no. 8 ceramic wool insulation throughout the evaporator
- Factory-poured high-temperature reinforced concrete combustion chamber
- Preheated air temperature gauge
- Blower drive to control airflow

HIGH PERFORMANCE AT AN AFFORDABLE PRICE

HIGH PERFORMANCE EVAPORATOR

HIGH ENERGY EFFICIENCY

SLICK, CLEAN LINES

OFFERED IN DIFFERENT PAN CONFIGURATIONS FOR BOILING FLEXIBILITY FROM 2 TO 35 BRIX

CARLIN BURNER

AVAILABLE SIZES: 2’X6’ T 6’X18’

FEATURES AND EQUIPMENT INCLUDED

- High quality D&G knurled connectors
- Smoke stack and cover
- Barometric damper (draft control) with stack adapter
- Aesthetic pan and ultra-strong D&G fold
- 2 layers of factory-installed no. 8 ceramic wool insulation throughout the evaporator and 1 layer of no.6 ceramic wool
- Return set and plumbing completely made of stainless steel
- First start-up accompanied by a D&G technician
- Inlet float box
- Transfer box (raised flue model)
- Water level

UNIQUE STREAMLINED DESIGN

HIGH ENERGY EFFICIENCY

OFFERED IN DIFFERENT CONFIGURATIONS

AUTOMATION AVAILABLE

CARLIN OR POWERFLAME BURNER

BOILING FLEXIBILITY FROM 2 TO 35 BRIX

AVAILABLE SIZES: 2’X6’ TO 6’X18’

FEATURES AND EQUIPMENT INCLUDED

- Integrated control panel
- Noise insulated burner box
- High quality D&G knurled connectors
- Wiring hidden in the furnace
- Smoke stack and cover
- Barometric damper (draft control) with adapter
- Carlin burner
- Syrup recovery tray
- Aesthetic pan and ultra-strong D&G fold
- Rigid 1” insulation board in the sides of all Champion evaporators
- 3 layers of factory-installed no. 8 ceramic wool throughout the evaporator
- Cooling air chamber all around the evaporator keep sides safe
- Return set and plumbing completely made of stainless steel
- Smoke stack thermometer
- First start-up assisted by a D&G technician

Instrumentation:

- Magnehelic gauge
- Pressure gauge (0-200PSI)
- Burner starter
- 110 volt electrical outlet

GAS RECIRCULATION TO MAXIMIZE THE ENERGY OF AVAILABLE BTUS

REDUCTION OF GREENHOUSE GASES

OFFERED IN DIFFERENT

CONFIGURATIONS FOR BOILING FLEXIBILITY FROM 2 TO 35 BRIX

AVAILABLE SIZES: 3'X10' TO 6'X17'

POWER FLAME BURNER

FEATURES AND EQUIPMENT INCLUDED

- Integrated control panel
- Wiring hidden in the furnace
- Smoke stack and cover
- Integrated modulating Powerflame burner
- Syrup recovery tray
- 1" rigid insulation panel in the sides of the evaporator
- 3 layers of factory-installed no. 8 ceramic wool insulation throughout the evaporator
- Return set and plumbing completely made of stainless steel
- High quality D&G knurled connectors
- Stainless steel 2 level catwalk and 1 step First start-up accompanied by a D&G technician

Aesthetic pan and ultra-strong D&G fold

Instrumentation:

- 2 oil pressure gauges
- Preheated oil and air temperature gauges
- Burner starter
- 100 volt electrical outlet

THE GREATEST TECHNOLOGICAL BREAKTHROUGH FOR THE MAPLE SUGAR INDUSTRY

ENVIRONMENTALLY FRIENDLY ELECTRICALLY POWERED TECHNOLOGY

TOTAL RECOVERY OF ENERGY CONTAINED IN MAPLE SAP

NO GHG OR AIR CONTAMINANT EMISSIONS

6 CAPACITIES: 80, 125, 160, 225, 340 AND 440 GPH

2.1 kW PER US GALLON OF SYRUP

FEATURES AND EQUIPMENT INCLUDED

- No smoke or steam stack
- Fully automated, resulting in substantially lower labor costs
- Plate heat exchanger and heating elements preheat sap and improve evaporator performance by 25%
- Allows feed of concentrate up to 22 BRIX
- New Power Unit system for 230, 460 and 575 V units
- Over 275 units sold since 2014
- Better tasting, color-defined syrup
- Fast and easy boiling and cleaning

INCENTIVES AVAILABLE

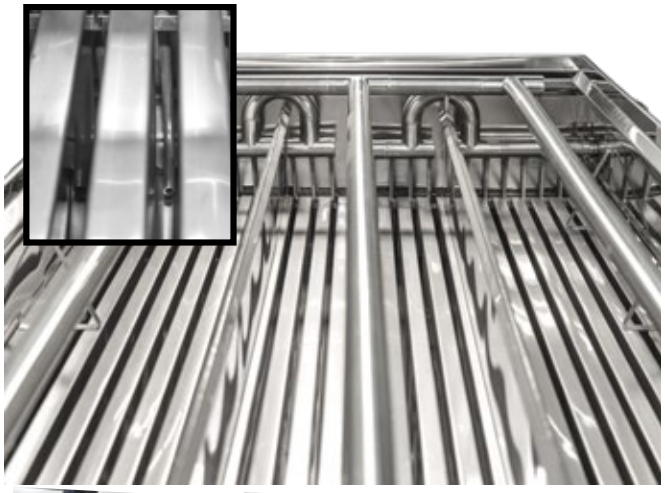
FINANCING AVAILABLE! NORTH STAR LEASING COMPANY (800) 874-4747

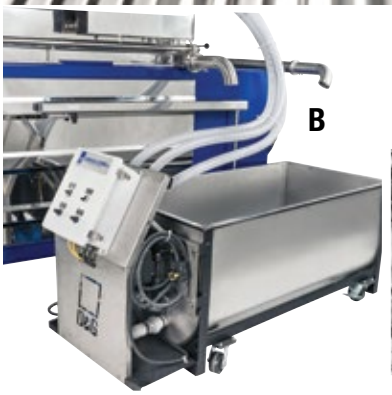
VERMONT ELECTRIC CO OP INC

Rotary wash support for condensers

EVAPORATOR ACCESSORIES

A





B

C

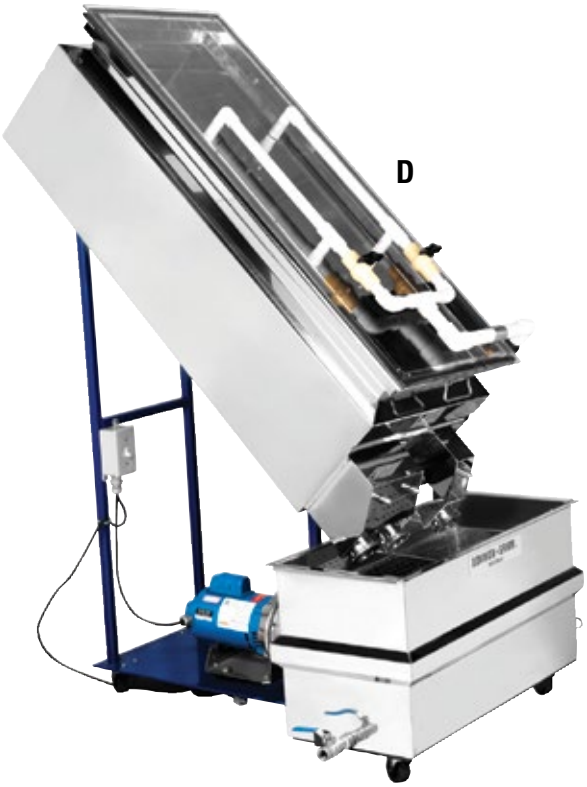
A AUTOMATED POWER WASHER

Components:

- Tubing assemblies fit between flues in two sections (left and right)
- Tubing assembly with spray nozzle for the top flat section of the flues
- Stainless steel ferrules and clamps for easy disassembly **(C)**
- Washing tank on pivoting wheels **(B)**
- Gould 5hp Wash Pump (100 GPM @ 10 PSI)
- 3 High Flow modulating valves to control spray velocity
- Control box with industrial PLC
- Electronic pressure sensor to detect low water levels.

Advantages:

- Effectively cleans the bottom and sides of the flues
- Large diameter High Flow Spray Nozzle
- Strainer filter at the pump inlet above the bottom lets sugar stones accumulate . at the bottom of the tank
- Power supply requirement 230 Volt / 20 Amps (conventional outlet: 230V / 50A)



D

D STAND ALONE SYRUP PAN WASHER

- Pump system to wash your syrup pans
- Plexiglas lid
- Tank with mesh to recover the limestone
- Number of sprinklers varies according to pans size
- Available in single, double, triple and quadruple pan format

INTEGRATED SYRUP PAN WASHER (NOT SHOWN)

- Integrated in the pan or tanks
- Sold separately
- Plexiglas lid
- Number of sprinklers varies according to pans size

A FLOW INVERTER

–Manual or automated flow inverter
–Allows to maintain flow without substituting pans
–Center flow capability

EVAPORATOR HOOD (NOT SHOWN)

Stainless steel hood
–Full steam energy recovery
–Improves evaporator performance
Single or dual function preheater
LED hood lights

TRANSFERT BOX

B **216589** Transfer box with sediment trap

C BUTTERFLY VALVES

210501 1 1/2" butterfly valve
210136 1 1/2" butterfly valve with ferrule
210532 2" butterfly valve
210143 2" butterfly valve with ferrule

VALVES

D Electric sap entry and transfer valves controlled by level probes. SAP automatically enters the flue pan and is automatically transfered.

DÉTECT-O

Alarm is triggered by low levels of sap in the pans.

E **471001** Detect-o alarm for oil-fired evaporator (automatic burner cut out, wiring not included)..... $372.00
470998 Detect-o alarm only (for wood-fired evaporator) $290.00

DEFOAMER DISPENSERS

Liquid anti-foaming protector for spoke breakdown and flat bottom failure.
– Liquid defoamer tank inside hood
– Preheated by steam, the defoamer is carried by gravity to the determined locations
– Made from 100% stainless steel
202957 Manual defoamer dispenser
F **280535** Automated electric defoamer dispenser

OTHER OPTIONS (NOT SHOWN)

–Ferule connectors
–Smoke stack thermometer
–Electrical outlet (110 volts)
–Draft control
–Stainless steel catwalk
–Syrup recovery tray

Oil fired options:
–Modulating Powerflame burner
–Magnéhélic gauge
–Pressure gauge (0-200PSI)

COMPLIANT WITH THE CALIFORNIA LEAD AGREEMENT

DOMINION & GRIMM MAPLE CREAM MACHINE

Mixer holding up to 2 gallons of maple syrup. 3/4 hp – 110 Volts electric motor. 1" lead free brass "Oberdorfer" gear pump. All stainless steel plumbing on ferrules with fittings fully removable for a quick cleaning of the tank and the plumbing.

264306 Mixer for maple cream.....$2 385.00

053283 2" Silicone gasket .....**PRICE IN STORE**

264313 Stainless steel arm to clean & empty cream machine pipe..... $38.30

DOMINION & GRIMM CREAM MIXER

– 1/2 hp – 110 Volts electric motor with a gear box

– Compact and robust construction

– Completely made in stainless steel

– Holes in the paddles for better mix

265747 ..... $1 995.60

206306 16" x 6" Additional sugar pan $254.10

D&G HIGH CAPACIUTY MAPLE CREAM MACHINE

– The water cooling system allows the product to be processed without having to cool it beforehand

– Continuous cream production

– Easy disassembly with ferrules for easy cleaning

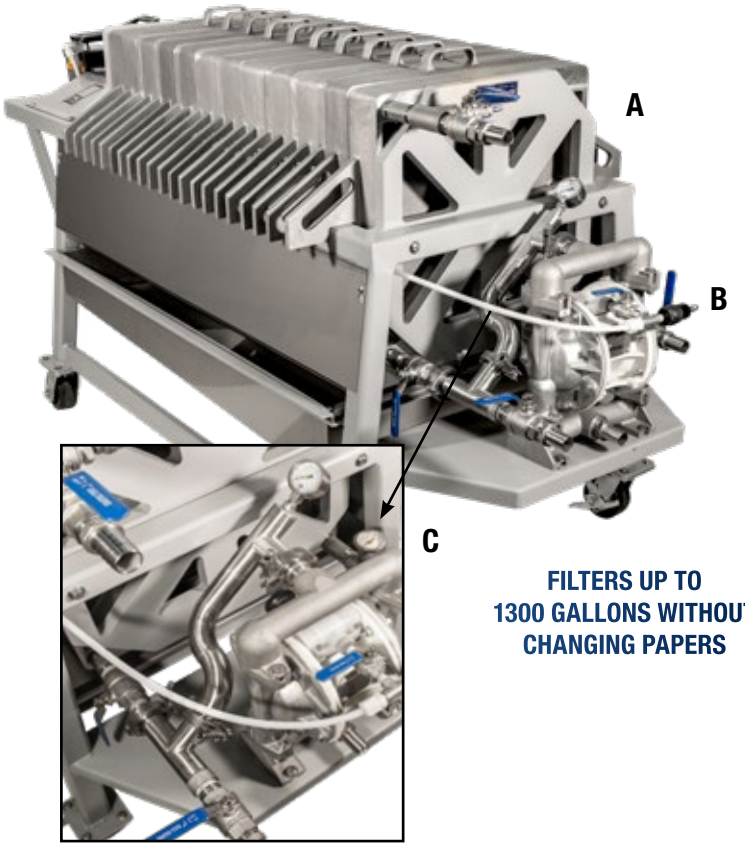
– 2 hp motor running on 220V

– Yaskawa drive

– Stainless steel endless screw, tubing, frame and production casing

COMING SOON

HIGH QUALITY PRIMARY ALUMINUM FINISH



FILTERS UP TO 1300 GALLONS WITHOUT CHANGING PAPERS

A 20" DIAPHRAGM SYRUP FILTER PRESSES

Ideal for 25,000 taps and more. Capacity of 920 in^3 of filtration per empty frame. Manufactured in aluminum. Removable stainless steel plumbing with ferrule. Hydraulic system to tighten the plates. High quality finish.

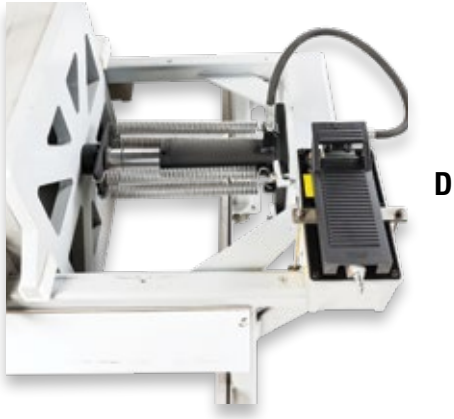
264856 20" Syrup filter press complete (7 frames)

265211 20" Syrup filter press complete (10 frames)

B **NEW** Included single air inlet to supply the diaphragm pump and hydraulic cylinder

C **385551** Plumbing kit with ferrules for diaphragm pump

D **265457** Black hydraulic cylinder with pedal (industrial)



E 15" DIAPHRAGM SYRUP FILTER PRESSES

Ideal for 15,000 to 30,000 taps and more. Capacity of 415 in^3 of filtration per empty frame. Manufactured in aluminum. Removable stainless steel plumbing with ferrule. Hydraulic system to tighten the plates. High quality finish.

264528 Syrup press (complete with 7 frames)

264542 Syrup press (complete with 10 frames)

ACCESSORIES FOR SYRUP FILTER PRESSES

485350 Filter aid 10 pounds

485374 Filter aid 50 pounds "Speed plus"

485343 Filter aid 50 pounds "Dicalite"

485619 Set of 7" D&G white papers 487323 (20 microns)

485633 Set of 10" D&G white papers 400/box (20 microns)

487477 Set of 15" D&G white papers 250/box (20 microns)

485626 Set of 20" D&G white papers, 250/box (20 microns)

487323 Set of 7 ¾" Leader white papers, 400/box

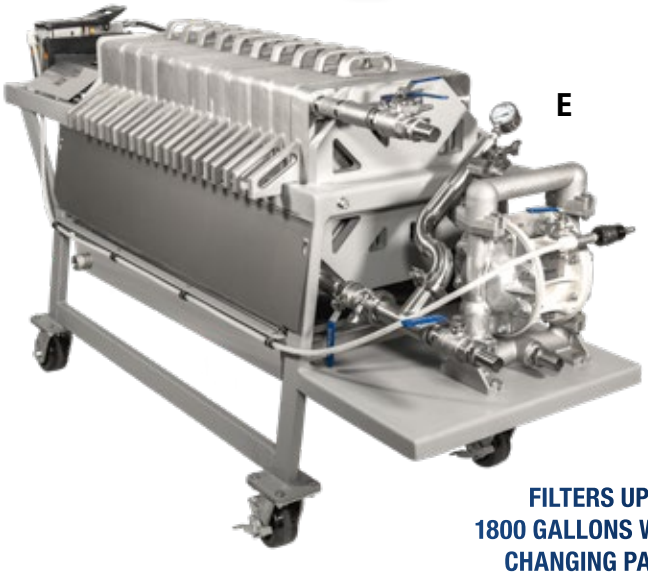
487460 15" polyester filter for D&G press

487453 15" polyester double press filter

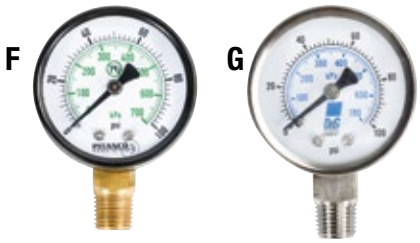
487484 20" Polyester filter for D&G press

F **080791** 0-100 PSI Pressure Gauge (Lead free brass)

G **080838** 0-100 PSI D&G Pressure gauge, stainless steel



FILTERS UP TO 1800 GALLONS WITHOUT CHANGING PAPERS



10" DIAPHRAGM SYRUP FILTER PRESSES

Capacity of 187 in^3 of filtration per empty frame.

A **265143** Complete (7 frames) with 6 GPM 1/8 hp Flojet electric diaphragm pump

265426 Complete (7 frames) with ½" diaphragm Allflow pneumatic pump

265204 Extended complete (10 frames) with 6 GPM 1/8 hp Flojet diaphragm electric pump

265181 Long complete (10 frames) with ½" diaphragm Allflow pneumatic pump

7" SYRUP FILTER PRESSES

Capacity of 80 in^3 of filtration per empty frame.

B **264702** Complete (7 frames) with 6 GPM 1/8 hp Flojet diaphragm electric pump

C **264825** Complete (7 frames) with ½" Allflow diaphragm pneumatic pump

264795 Complete (3 frames) with 6 GPM 1/8 hp Flojet diaphragm electric pump

Flojet pump and plumbing adapted for filter press

265099 Complete (3 frames) with ½" Allflow diaphragm pneumatic pump

Also available with 4, 5, or 6 2" thick frames. Optional tilting support.

ROCKING SUPPORTS

D **265495** Rocking support for 7" and 10" press (painted blue)

E **265327** Stainless steel rocking support for 7", 7" short & 10" presses

F SYRUP PRESS SEPARATORS WITH STAINLESS STEEL HANDLE

– Prevents the press from getting completely dirty if you have only a small quantity of syrup to filter

– Separates the frames of the press

– Saves time and paper filters

264566 7" $15.90

265150 10" $29.70

265792 15" $44.60

265808 20" $58.50

6 GPM (GALLONS/MINUTE) FLOJET PUMPS

– Flojet Diaphragm pump, NSF approved
– Made of nylon
– 1/8 hp integrated motor
– 6 gallons/minute pump (GPM)
– Maximum pressure of 50 PSI
– Can replace your Oberdorfer ½'' brass pump

C **385964** Pump, assembled on a stainless steel frame..... $496.00

D **385940** Flojet Pump only..... $300.00

E

F

FLOJET COMPLETE KIT

385568 Includes (D - E - F) :
– Flojet 6 gallons electric diaphragm pump only
– Stainless steel plumbing kit
– Stainless steel frame and stand kit with ½" adaptors

(Items can be sold separately) $516.00

E FLOJET PUMP'S COMPLETE PLUMBING KIT

385582 Plumbing kit necessary to replace the Oberdorfer pump. Includes miscellaneous plumbing items and a 0-100 PSI dial for the Flojet pump. $145.60

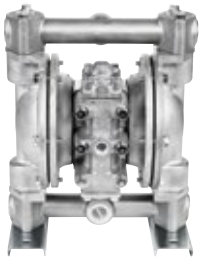
F FLOJET PUMP'S FRAME AND STAND KIT

385575 includes the stainless steel frame and the stainless ½'' pump adaptors, bolt and o-rings (2x) $70.40

FOOD GRADE GREASE (NOT SHOWN)

477515 Cartridge – 400 g $11.70

G



G DIAPHRAGM PUMPS FOR FILTER PRESSES

These pumps require an air compressor.

358159 ½" Aluminum diaphragm pump for 7" or 10" press

358203 1" Aluminum diaphragm pump for 15" or 20" press

H

INSULATED COVER FOR FILTER PRESSES

Maintains the syrup temperature

266515 Cover for 7" presses (3 frames)..... $234.00

266140 Cover for 7" presses (7 frames) $355.50

H **266133** Cover for 10" presses (7 frames)..... $445.50

266430 Cover for 15" presses..... $625.50

266126 Cover for 20" presses..... $805.50

SYRUP DUMPING TANKS OR SYRUP DRAW-OFF CONTAINERS

Compartmentalized tanks to separate the syrup pan liquid from each pan during the cleaning or when switching syrup pans. Allows you to pump back the syrup pan concentrated liquid without mixing it from one pan to another. Plumbing system and valve to pump back into the syrup pan(s). Can be used as syrup draw-off container.

270901 Tank, 2 compartments 25 gallons (not shown)

– Also available in 20, 33, and 40 gallons

A **270932** Tank, 3 compartments 25 gallons

– Also available in 40 gallons

– Pump available as an option

A

CONTAINERS

B **270987** Tank, 2 compartments 25 gallons

– Also available in 20, 33, and 40 gallons

271014 Tank, 3 compartments (not shown)

– Also available in 40 gallons

– Pump available as an option

B

C PEDAL FILLER

Solenoid electric valve and stainless steel adaptors (1/4", 3/8" or 1/2").
Pedal-activated opening /closing. Fills one bottle at a time. Easy to clean.

266188 Pedal filler CLEARANCE $270.00

C

SYRUP DOUBLE BOILERS, STAINLESS STEEL N0° 304

Syrup filler, stainless steel nº 304

D **266256** 40 gallons gravity filling unit, base included $3339.90

Electric water jacketed model 5000W – 220V. Adjustable thermostat.
The plumbing is all in stainless steel. Adjustable table and paint rack/base included.
Water and syrup acrylic level.

266287 Base only 40 gallons (Frame steel painted blue) $375.40

E **266201** Base counter only 40 gallons (Frame stainless steel) $573.10

F **266218** 10 gallons filler - stainless steel base included $2 485.80

Electric water jacketed model 3000 W – 220 V. Adjustable thermostat.
The plumbing is all in stainless steel. Adjustable table and paint rack/base included.
Water and syrup acrylic level.

266195 Base only 10 gallons, steel frame painted blue
(can be sold separately) $214.00

G **266300** Base counter only (for filler 10 gallons stainless steel) $437.20

095559 Dial thermometer 3" x 6" 1/2 connection (0° to 250°F) $76.10

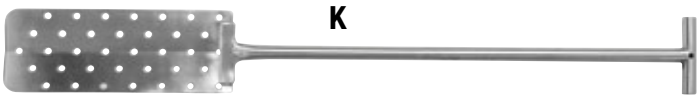
111945 5000 Watts

111914 3000 Watts

SYRUP TANKS

ALSO AVAILABLE IN STAINLESS STEEL



STAINLESS STEEL CONTAINERS FOR MAPLE

Container in stainless steel nº 304 with lid

A	523342	30 liters	$331.50
B	523373	40 liters	$377.40
C	523359	50 liters	$411.30
	208843	3/4" Female welded adaptor	$38.70

COMPLETE SYRUP FILTERING CONTAINERS

Complete with lids. Supplied with 3/4" valve, polyester, and hole adapter for holding filter.

262739	10 gallons, 1 polyester	$601.50
262746	15 gallons, 1 polyester	$632.70
262777	25 gallons, 2 polyesters	$772.70

SYRUP DRAW-OFF CONTAINERS WITH LIDS

Stainless steel nº 304. Valves not included.

D	262623	6 gallons, 22" height x 9" diam.	$384.10
E	262630	10 gallons, conical bottom, 25" height x 12" diam.	$433.20
F	262654	15 gallons, conical bottom, 25" height x 16" diam.	$474.80
G	262685	25 gallons, conical bottom, 25" height x 20" diam.	$554.30
H	262715	50 gallons, conical bottom, 30" height x 23" diam.	$697.00
	216817	Z-P 3/4" stainless steel ball valve	$49.40
	216787	Z-P 1/2" stainless steel ball valve	$42.40
	263217	1-hole adapter for 10-gallon syrup container	$180.80
	263224	1-hole adapter for 15-gallon syrup container	$198.70
I	264122	Syrup container ring	$55.90

SUPPORTS WITH WHEELS FOR SYRUP CONTAINERS

	262265	Round 10 gallons (12" diameter)	$130.60
	262227	Round 15 gallons (16" diameter)	$141.00
J	262258	Round 25 gallons (20" diameter)	$143.00
	262289	Round 50 gallons (23" diameter)	$148.60

K STAINLESS STEEL PADDLE FOR SYRUP CONTAINERS

267307	To stir the syrup in the containers (measures 48" long)	$125.20

PRE-FILTER BAG LINERS

Heavy-duty polyester filters. Increase filter bags lifetime.

L	487514	FDA – pre-filter nº 8	+/- 100 Microns	$17.70 / dz
M	487538	Paper – square 36" x 36"	+/- 100 Microns	$28.40 / dz

FILTER BAGS (FDA APPROVED)

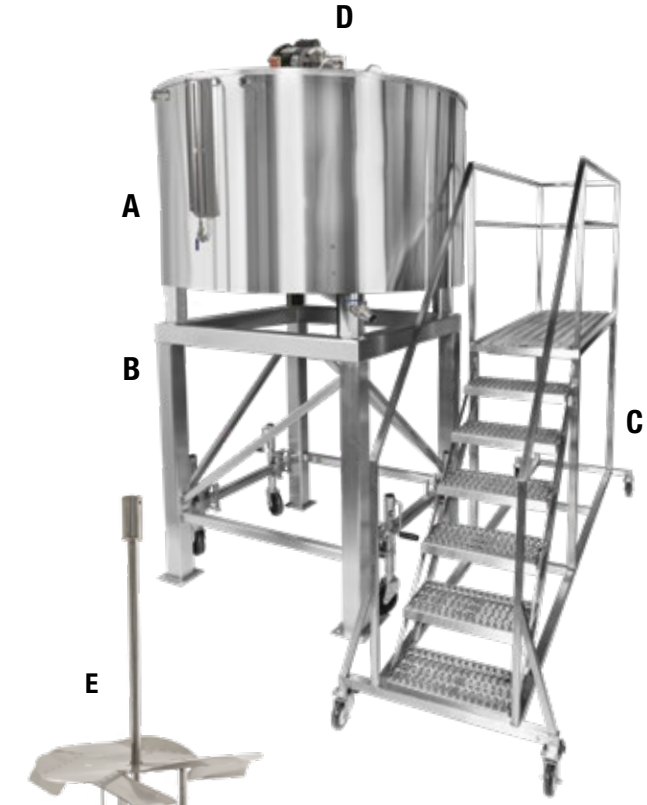
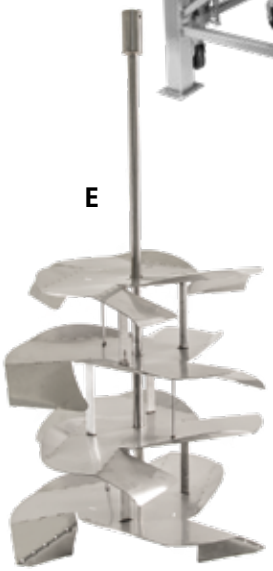
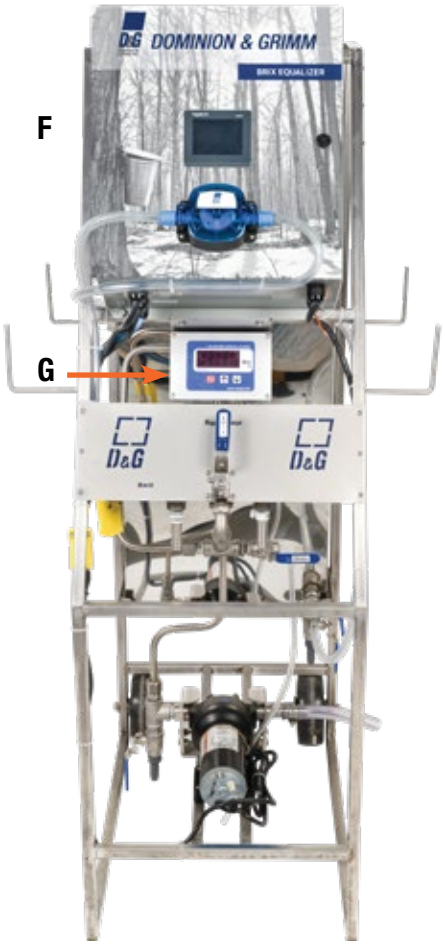
BRIX BALANCER TANK







QR or Click

TO LEARN MORE

BRIX EQUALIZER TANK (INSULATED)

- Insulated tank
- Conical bottom
- Two section Lids on hinges
- Tank helps you equalize the Brix and temperature of large quantities of syrup for consistent packaging
- Optional castors

A **280986** Insulated tank (250 gallons)

280962 Insulated tank (125 gallons) not illustrated

262968 Square insulated tank (50 gallons) not illustrated

- Option with heating element
- Opton with mixer

TO LEARN MORE

B **280801** Frame for Brix Tank (250 gallons)

280948 Brix balancer mixer

D – $^1/_4$ hp - 110/120 Volts motor (21 RPM)

E – Stainless steel blade

AUTOMATED BRIX EQUALIZER

F 412684

Automatically adjust the flow of the evaporator draw off valve according to the desired BRIX

- Allows to reach a more precise BRIX and reduces labor costs
- Facilitates and speeds up BRIX balancing, preventing syrup cooling before barreling.

Automatically and precisely balances the BRIX degree of syrup in insulated tanks before barreling.

- Maximizes production income: Each excess BRIX in a 34 gallon tank is equivalent to 0.67 gallons of syrup lost.
- Fully automated Brix Equalizing by controlled filtrate injection (easy to operate and intuitive)

Includes:

- Touchscreen Start-up, Parameter Settings and Alarms
- Automatic and programmable settings for the mixer in the insulated balancing tank
- Separate manual start control for pumps and mixer
- Management of the external pump for barrel filling
- Variable metering feed pump for permeate injection in the syrup
- Control box (PLC / interface: industrial Schneider “Touchscreen”)
- Alert for cleaning the Brix reader
- 0 to 80 Atago Brix reader, with integrated temperature sensor
- Stainless steel piping and quick coupling
- Flojet (6 GPM) circulation pump for barrel transfer
- 6 gallon tank for permeate feed
- Low-level alarm automatically stops the transfer to barrel allowing consistent Brix and syrup temperature
- 120 Volt / 15 Amp Power Supply

ATAGO REFRACTOMETER CM-800A – 0-80 BRIX

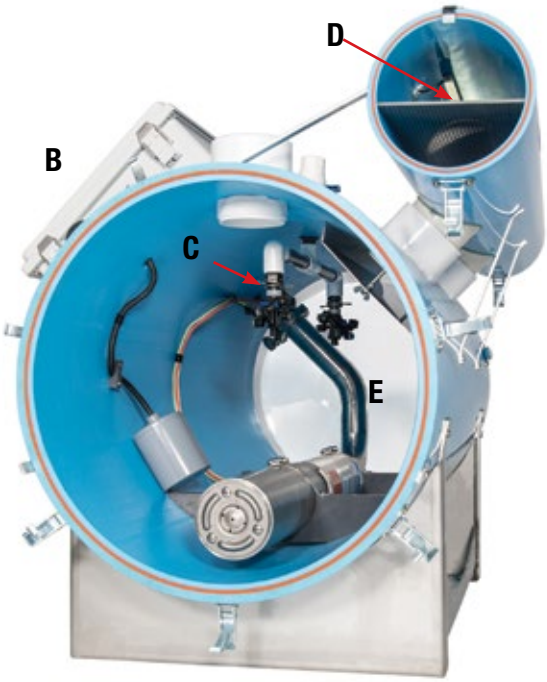
G **132933** Continuous Brix degree reader for syrup

BRIX AUTOMATED EQUALIZING SYSTEM

Adjustment of the draw-off temperature value of the evaporator draw off according to the BRIX degree to be reached in the mixing tank.

BRIX equalizing before barreling

Syrup flow diagram



A ELECTRIC RELEASERS WITH SUBMERSIBLE PUMP

For sugar bush with 100 to 30 000 taps
– 1.5 hp pump is installed within the releaser
– Easy to operate. Can release water with a vacuum of 27 Hg and up with no vacuum interruption, and a 2" output

For 2300 taps and less (1 pump 0.5 hp)

A **483421** Vertical 10" x 30", 110 volts (DG-224-PS) **NEW**
– Manifold height 32"

388873 Horizontal 14" x 30", 110 volts (DG-223-30PS)
– Manifold height 22.5"

485916 Horizontal 18" x 24", 110 volts (DG-225-PS)
– Manifold height 25.5"

487286 Horizontal 14" x 36", 230 volts (DG-223-36S) **NEW**
– Manifold height 22.5"

Capacity of 4000 taps (2 pumps 0.5 hp)

487728 Horizontal 18" x 24", 110 volts (DG-225-2PS) **NEW**
– Manifold height 25.5"

Capacity of 4000 taps (1 pumps 1 hp)

484346 Horizontal 14" x 36" (DG-223-PS)
– Manifold height 22.5"

B **Capacity of 7000 taps. (1 pump 1.5 hp)**

407468 Horizontal 18" x 36" (DG-227-PS)
– Manifold height 25.5"

For 7000 to 15 000 taps (2 pumps 1.5 hp)

407512 Horizontal 18" x 36" (DG-227-2PS)
– Manifold height 25.5"

C SPRINKLER TO WASH THE RELEASER

409226 Sprinkler set for releaser

– Model operated under vacuum
– By sucking water from your tank, the sprinkler cleans the walls of your releaser
– Optional or included on your new releaser
– Fits on your current releaser
– Also available for mechanical releaser

D SET OF LED LIGHTS

487217 Set of LED lights for releaser
487244 Set of LED lights for double releaser
– Ideal to improve vision inside the manifold

E STAINLESS STEEL SUBMERSIBLE PUMP OUTLET

487200 Stainless steel outlet kit for submersible pump

F ELECTRIC SUBMERSIBLE MULTI-PUMP RELEASER

Capacity of 25 000 taps
484438 (DG-227-PSM) 4 pump model

– Horizontal model 18" X 60" with 2 cylinders

– Manifold height 44"

– Available in 2, 3 or 4 pumps configurations depending on the number of taps

A ELECTRIC ECONOMIC RELEASER

Horizontal, electric extractor with 1.5 hp submersible pump

Capacity of 2300 taps
484353 (DG-225-PS eco) 18” x 36”
– Submersible pump 0.5 hp, 110 Volts

Capacity of 6000 taps
409370 (DG-227-PS eco) 18” x 36”
– Economical version of the 227-PS extractor
– Has the same features as other submersibles, but without manifold.
– Suitable for wet/dry systems that have only two extractors at the pumping station.
– Manifold height 22”

B INTELLIGENT PUMP CONTROLLER

601613 Yaskawa controller

– Modulates the speed of the submersible pump according to the volume in the releaser

– Continuous sap evacuation

– Saves electricity

– Increases the longevity of the pumps

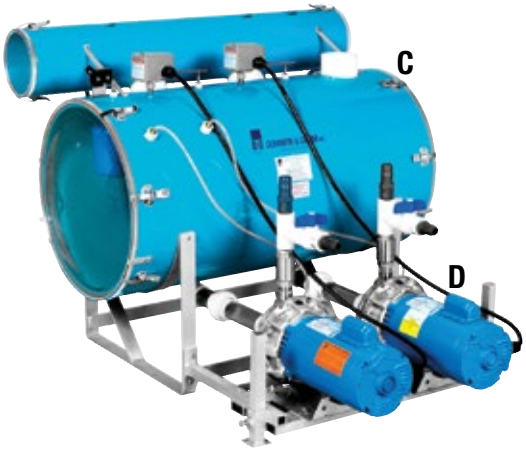
NEW

B

C HORIZONTAL ELECTRIC DUAL-PUMP RELEASERS

For 4000 - 20 000 taps (the number of pumps used varies according to the number of taps)
484339 (DG-223-36) 14” x 24” 2 penn switch, manifold height 26.5”
400766 (DG-227-36) 18” x 36” 2 penn switch, manifold height 29.5”
400605 (DG-227-48) 18” x 48” 3 penn switch, manifold height 29.5”

– System uses two water pumps
– Second pump serves as backup if first pump is insufficient
–”Gould” pumps can extract water from the sap to a vacuum of 27 Hg and higher
– Pump and stand not included



D RELEASER STAND FOR WATER PUMP

Available for 1, 2 or 3 water pumps

E HORIZONTAL ELECTRIC SAP RELEASERS (1 PUMP)

Capacity of 4000 taps
486173 14” x 24” (DG-223)
Manifold height 26.5”

Capacity of 5000 taps
400452 18” x 24” (DG-225)
400544 18” x 36” (DG-227)

– Requires a water pump to dump the sap
– Manifold height 29.5”

F VERTICAL ELECTRIC SAP RELEASERS

Capacity of 1500 taps.
400391 10” x 24” (DG-224)

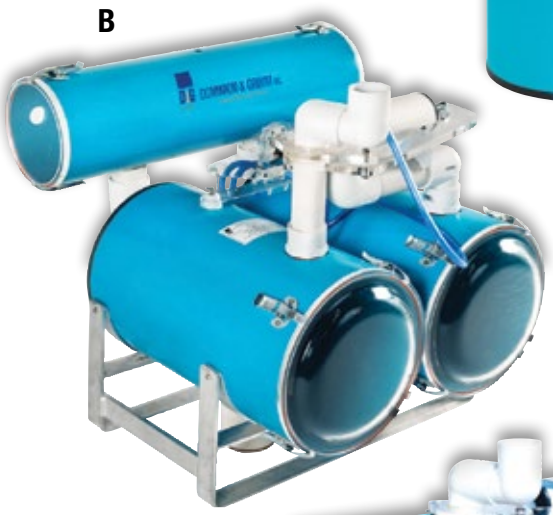
Capacity of 2500 taps.
400421 10” x 36” (DG-224-1)

– Requires a water pump to dump the sap
– Manifold heights:
For 1500 taps (25”)
For 2500 taps (38”)

A

ALL SAP RELEASERS ARE FACTORY TESTED AND CHECKED.

B



C

CONTINUOUS VACUUM

E

THE MODEL OF THE RELEASER IS DETERMINED BY THE NUMBER OF TAPS AND VACUUM LEVEL

A VERTICAL MECHANICAL SAP RELEASER

Capacity of 700 taps
400278 (DG 216) 10” x 18”

– Mechanical releaser
– Installed above small storage tank
– Manifold height: 20”

B HORIZONTAL MECHANICAL SAP RELEASER

Capacity of 2500 taps.
400926 10” x 18” horizontal (DG-213H)

Continuous vacuum releaser
– Installed on a storage tank
– The sap is alternately dumped in, one side at a time
– Manifold height: 16.5”

C DOUBLE VERTICAL MECHANICAL SAP RELEASERS

Capacity of 3000 taps
400186 10” x 18” (DG 213-18) Manifold 18”
400407 10” x 24”(DG 213-24) Manifold 24”

– Continuous vacuum mechanical sap releaser
– Installed on a storage tank
– The sap is alternately dumped in, one side at a time
– Manifold height 20”

E GUIDE ROD FOR RELEASER

– Improved rod guide with seal for high vacuum (27 Hg and over)
– Improves the tightness of the device
– Installs on any new device and existing ones
– When installed as an add-on, the float rod is mandatory when installing the guide
– Daily maintenance required

D DOUBLE HORIZONTAL MECHANICAL SAP RELEASERS

Capacity of 2 500 taps
407956 10” x 36” (DG 214)

Capacity of 6000 taps
400476 14” x 36” (DG 219)

Capacity of 12 000 taps
400308 18” x 36” (DG 220) Vacuum inlet 2”
400377 18” x 36” (DG 220-3) Vacuum inlet 3”

25,000 taps capacity
400360 18” x 48” (DG 222) Vacuum inlet 3”

– Continuous vacuum mechanical sap releasers
– Installed on a storage tank
– The sap is alternately dumped in, one side at a time
– Manifold heights
For 2500 taps (16.5”)
For 6000 taps (22.5”)
For 12 000 and 25 000 taps (26.5”)

MECHANICAL RELEASERS WITH DOUBLE SINGLE VALVES

Capacity of 3,000 taps.
A **400896** 10” x 18” (DG-213-2VS) Vertical

Capacity of 6,000 taps.
B **400865** 14” x 36” (DG219-2VS)

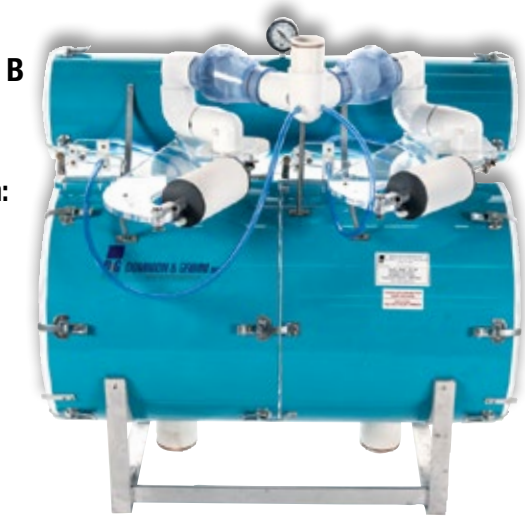
Capacity of 12,000 taps.
406928 18” x 36” (DG 220-2VS) Vacuum Inlet 2”
406911 18” x 36” (DG 220-3-2VS) Vacuum Inlet 3”

Capacity of 25,000 taps.
406898 18” x 48” (DG 222-2VS) Vacuum Inlet 3”

– Releasers allowing an even more constant continuous vacuum
– Allows a bigger volume of sap at a high vacuum
– Installed on a sap tank, they evacuate the sap mechanically (without pump) simply by vacuum

– Manifold heights:
For 3,000 taps (20”)
For 6,000 taps (22.5’’)
For 12,000 and 25,000 taps (26.5”)

Démonstration on:
YouTube



C AUTOMATED MECHANICAL RELEASERS

NEW Capacity of 2,500 taps.
487248 10” x 24” (DG 213B)
487279 10” x 36” (DG 214B)

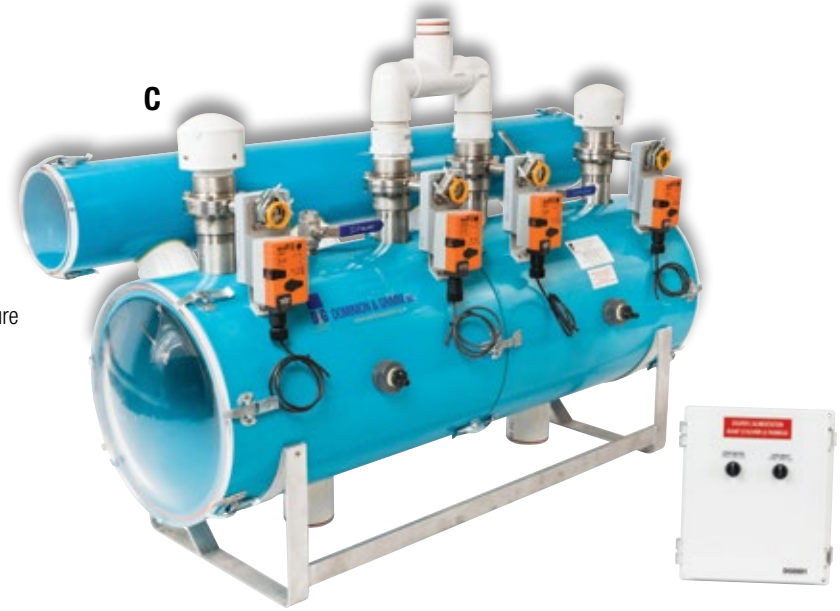
Capacity of 6,000 taps.
407987 14” x 36” (DG 219B)

Capacity of 12,000 taps.
407970 18” x 36” (DG 220B)

Capacity of 25,000 taps.
407963 18” x 48” (DG 222B)

– New generation of mechanical releasers
– Eliminates any loss of air when sap is dumped into the tank
– Sap sensors are connected to **Belimo** (5-year guarantee) valves to ensure tightness of the releaser

– Manifold heights:
For 2,500 taps (16.5”)
For 6,000 taps (22.5”)
For 12,000 and 25,000 taps (26.5”)



MADE AT DOMINION & GRIMM

A

B

C

Demonstration on: YouTube

D

COMBINED SAP RELEASERS

Capacity of 3000 taps.
A **400438** (DG-213 / 225)

Capacity of 6000 taps.
B **400490** (DG-219 / 227) Vacuum Inlet 2”

Capacity of 12 000 taps.
400162 (DG-220 / 227)
400131 (DG-220-3/227) Vacuum Inlet 3”

Capacity of 25 000 taps.
400148 (DG-222-3/227-60) Vacuum Inlet 3”

“New generation of combo releasers”
– Mechanical/electrical releasers are built to work at 25 Hg with high vacuum
– Evacuates the releaser water in the second part without being under vacuum
– Easy to dump the sap from the releaser in the tank

– Manifold heights:
For 3000 taps (38.5”)
For 6000, 12 000 and 25 000 taps (46”)

C COMBINED SAP RELEASERS WITH SINGLE VALVE

Capacity of 3000 taps.
407147 (DG-213/225 - 2VS)

Capacity of 6000 taps.
407161 (DG-219/227 - 2VS) Vacuum Inlet 2”

Capacity of 12 000 taps.
407185 (DG-220/227 - 2VS)
407208 (DG-220-3/227 - 2VS) Vacuum Inlet 3”

Capacity of 25 000 taps.
400100 (DG-222-2VS/227-60) Vacuum Inlet 3”

“New generation combo releaser”
– Mechanical / electric releasers are built to work at 25 Hg and higher
– Single valve installed on each top parts
– Allows to receive a bigger volume of sap
– Improves continuous vacuum
– Evacuate the releaser water in the second part without being under vacuum

– Manifold heights:
For 3000 taps (38.5”)
For 6000, 12 000 and 25 000 taps (46”)

D VACUUM GAUGE (LEAD-FREE)

116261 2.5” dia. – 0 – 30 Hg, lead-free brass..... $16.50
371462 4” dia. – 0 – 30 Hg, lead-free brass..... $30.00
080104 2.5” dia. – 0 – 30 Hg, stainless steel $32.00
080128 4” dia. – 0 – 30 Hg, stainless steel $49.50

HIGH VACUUM

A CONVENTIONAL MOISTURE TRAPS

400773 8" x 30" Model (Vacuum 1.5 hp)

400827 10" x 24" Complete Model (Vacuum 5 hp and under)
Options:
400735 Moisture trap only
400711 Aluminum base
485893 Water level sensor for emergency stop

400834 Complete 14" x 30" model (Vacuum 7.5 hp) and up
Options:
400636 Moisture trap only
400704 Aluminum base
485893 Water level sensor for emergency stop

A

B

B DELUXE MOISTURE TRAPS

– Includes filtering devices for water particles
– Water level sensor to stop the pump in case of failure

409295 Deluxe D&G 14" x 30" moisture trap for Becker pump (recommended) 7.5 hp and more

404108 Deluxe 10" x 24" moisture trap D&G

D&G SAP LIFTERS WITH MANIFOLD

Single (up to 350 taps)
C **400582** Sap lifter with manifold (DG-555)

Double (up to 800 taps)
D **400599** Sap lifter with manifold (DG-555-2)

– Requires high-level vacuum (20 to 29 Hg)
– Makes it possible to collect sap from trees on sites lower than the main pumping station
– Maximum elevation drop of 15 feet

We recommend the installation of this unit in a temperate place between 1 ° and 5 ° Celsius to avoid frost

A 1 PH -230 V-ODP GOULD PUMPS

Made of stainless steel. 2- and 3-stage pumps also available.

385001 $\frac{3}{4}$ hp – 1ST
385032 2 hp – 1ST
385018 1 hp – 1ST
385049 3 hp – 1ST
385025 1.5 hp – 1ST

B GOULD HI-PRESSURE MULTISTAGE PUMPS

125 to 350 PSI, 5 gallons and more per minute, $\frac{1}{2}$ to 5 hp

SEE OUR IN-STORE REPRESENTATIVES FOR YOUR SPECIFIC NEEDS

C RELEASER PENN SWITCH

401923 (DG-430) $66.00

D ELECTRIC CONTROL FOR STORAGE TANK

Starts water pump. Used to transfer sap to another tank. Volume to be transferred is also adjustable.

401985 (DG-432) $237.60

OTHER ROD LENGTHS ALSO AVAILABLE

E STAINLESS STEEL FLOAT TANK SUPPORT

402579 Stainless steel support for electrical control for storage tank (See letter D) $63.90

F HORIZONTAL VACUUM BOOSTERS

Helps vacuum transport on long distances from the sugar bush and enhances vacuum performance in the lines.

Without support		With support	
400872	6” x 12”	**358692**	10” x 24”
400902	6” x 18”	**358166**	10” x 30”
400933	6” x 24”	**358708**	10” x 48”
401046	3” x 24”	**358197**	10” x 60”

362217 O-ring joint for 10” booster
403453 Orange O-ring joint $/per foot

G INVERSE SLOPE PUMPING SYSTEM

Allows sap to flow from a remote pumping station to the main sap releaser (sugar bush). To be installed with a mechanical releaser storage tank. Enables sap to flow by gravity when the vacuum pump is shut down.

403934 (DG-520) $500.40

H AIR INJECTOR SYSTEM

Air injector system increases sap flow toward the main sap releaser. Also optimizes sap ladder operation and helps sap rise.

405426 Air injector system (DG-510) $328.50
(for check valves see pg. 64)

I RELEASER FLOATS

402227 Small blue $44.00
402524 Large $53.10

A ANTI-FRAZIL PVC MESH

408144 For manifold 6” x 12”
408175 For manifold 6” x 27”
408151 For manifold 6” x 18”
408182 For manifold 6” x 38”
408168 For manifold 6” x 24”
401138 Other sizes available ($/foot^2)

B SWIVELS FOR MECHANICAL SAP RELEASER

403965 1 ½” $18.90
403996 2” $21.60
404023 3” $24.60
C 404733 Grease pack (3 ml) $4.50

HEIGHT ADJUSTABLE RELEASER STANDS (NOT SHOWN)

274510 For 48” tank (set of 2)
274527 For 60” tank (set of 2)
274534 For 72” tank (set of 2)
274541 For 84” tank (set of 2)
274558 For 90” tank (set of 2)

D HEIGHT AND LENGTH ADJUSTABLE RELEASER STANDS

274589 3’ to 5’ (set of 2)
274596 4’ to 7 ½’ (set of 2) .....

RELEASER STANDS (NOT SHOWN)

Made of stainless steel 18 gauge. Use to hold the pneumatic releaser above the tank.

274404 For 48” tank (set of 2) $187.20
274411 For 60” tank (set of 2) $204.50

OTHER SIZES AVAILABLE

E CYLINDERS FOR RELEASERS

402395 Cylinder for releaser (DG-216)
401565 2 ½” cylinder for releaser (DG-213)
401657 3” cylinder for releaser (DG-215,219,220)
401688 4” cylinder for releaser (DG-220-3,222)

F SEALING JOINTS

403415 For releaser DG-213 ..... $26.10
403408 For releaser DG-216 ..... $19.60
403521 For releaser DG-224,224-1 ..... $14.90

VACUUM MONITORING SYSTEM

Easy powerful software for monitoring and complete surveillance of your Sugar bush on a tablet, computer or cell phone.

The system allows for an overview of all your sensors and pumping stations to effectively optimize the performance of your Sugar bush. The Dominion & Grim system requires no access to internet.

INCREASE YOUR TAP YIELD WITH CONTINUOUS VACUUM SENSORS MONITORING

Features:

- Mapping of your Sugar bush
- Vacuum and leak detection sensors on each mainline with leakage and equipment malfunction warnings
- Remotely control your equipment (Vacuum pumps, sap pumps, pipe drainage, releasers and others)
- Increased sensors' battery life with a new off-season mode. Facilitates system restart at the beginning of each season.
- Metering of sap tank levels
- Integrated camera system
- History of vacuum vs temperature data
- Freeze reports
- Releaser water metering system
- And many more

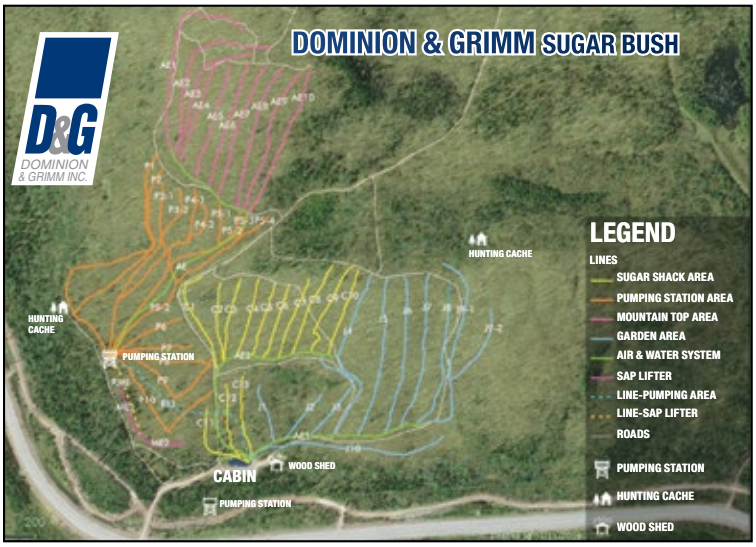
PHONE, TABLET AND COMPUTER

Vacuum Sensor | Sap tank level | Sugar bush satellite map | Graphic of vacuum, temperature and more

DOMINION & GRIMM INC.

MAPPING SERVICE

MAP OF YOUR LARGE SUGAR BUSH



COROPLAST PRINTING

THE SIZES OF THE SUGAR BUSH MAPS ARE: 2' X 3' 3' X 5' 4' X 8'

SUGAR BUSH MAPPING SERVICES

- GPS mapping of your site
- Tubing layout designed by an experienced team
- Tubing system installation according to your terrain and criteria (transfer tanks, wet/dry system, etc.)
- Precise evaluation of the material required
- Accurate plan of your tubing system, stations, buildings, etc.
- Map printing, after completion of your project.

NO INTERNET ACCESS REQUIRED

D&G REMOTE MONITORING STARTING KIT

121654 **D&G** single starter kit with mobile gateway
121630 **D&G** double starter kit with mobile gateway

Includes:

- **A** D&G server (software)
- **B** Wireless Gateway
- **C** Mobile Gateway
- **D** Single vacuum wireless sensor (5x)

or

- **E** Double vacuum wireless sensor (5x)

121326 INPUT-OUTPUT CONTROL BOX (NOT SHOWN)

– Controls and monitors pumping stations

SURVEILLANCE CAMERAS (NOT SHOWN)

121142 Rotary camera
121234 Fixed camera

A 121258 D&G SERVER (SOFTWARE)

– Mandatory for all setups
- At the heart of D&G's monitoring system
- Compatible with all your electronic devices (computer, tablet or smartphone)

B 121265 WIRELESS GATEWAY

– Sends information collected by the wireless sensors to the D&G server
- Link between the wireless network and the monitoring system

C 121272 MOBILE GATEWAY

– Link between a smartphone and the wireless sensors
- Simplified sensor installation
- Monitors the wireless sensors without connecting to the Web

D 121302 SINGLE VACUUM WIRELESS SENSOR

– Vacuum and temperature readings for **1** mainline
- 2 "D" alkaline batteries for 2 - 4 seasons of battery life
- Covers long distances in the forest
- Most advanced casing in the market

E 121609 DOUBLE VACUUM WIRELESS SENSOR

– Vacuum and temperature readings for **2** mainlines
- 2 "D" alkaline batteries for 2 - 4 seasons of battery life
- Covers long distances in the forest
- Most advanced casing in the market

NEW

121548 WIRELESS TANK LEVEL SENSOR

– Monitoring of sap levels in a tank
- 2 "D" alkaline batteries for 1 - 2 seasons of battery life
- Can read tank levels from 25 feet high

121944 WIRELESS SENSOR FOR RELAY

– Lets you start up to 2 pumps and other devices remotely
- 2 "D" alkaline batteries
- Covers long distances in the forest
- Most advanced casing in the market

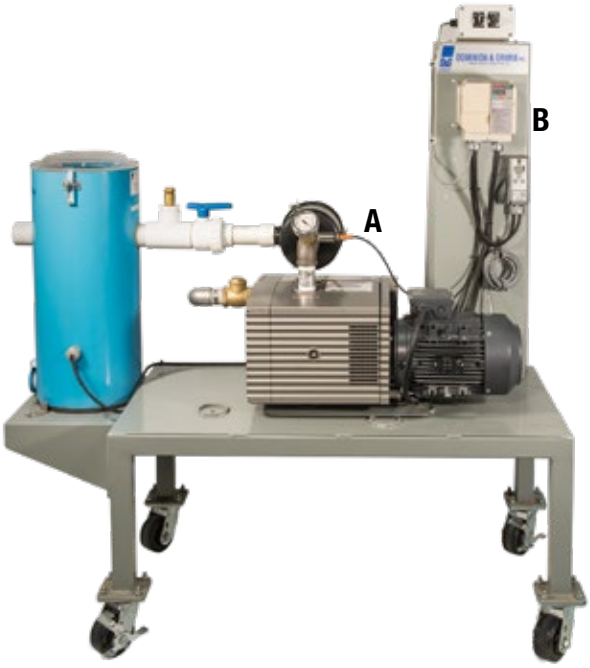
219573 MODULATING VALVE FOR VACUUM PUMP

– Makes it possible to lower the vacuum of the pumps without modifications to them

– Requires a power supply and a controller sold separately

121876 1/2» Valve
121890 3/4» Valve
121883 1» Valve

VACUUM PUMPS



A BECKER OIL-COOLED PUMP

- Oil-cooled pallet vacuum pump
- Vibration isolator
- Up to -29.5 Hg
- 3, 5, 7.5 and 10 hp models
- Direct drive shaft
- Available in all voltages
- Ultra quiet
- Stand and drive not included
- Without overheating

B YASKAWA SMART SPEED MODULATOR

- For vacuum pump
- Smart drive kit including a temperature and vacuum probe
- Controls the vacuum level as needed
- Modulation between -15 and -29.9 Hg
- Motor start, stop and speed is adjusted according to the temperature setting
- Adjust the vacuum and temperature settings yourself
- Once the desired vacuum is reached, the speed modulator slows the motor and maintains the set level of vacuum

BECKER

BECKER CLAW VACCUM PUMP

- 100 % oil free and without contacts et sans contact
- Air-cooled
- Integrated pressure relief valve
- Air filtration known from other models is integrated as standard
- The claw technology ensures a high degree of efficiency and low power consumption
- Easy to maintain
- Available in 3 models:

388651 -BCV 100 à 4,0 hp
388637 -BCV 150 à 5,4 hp
388668 -BCV 300 à 10,0 hp

EDWARDS

EDWARDS SCREW VACUUM PUMP

- Variable speed drive
- Quiet
- CFM still high at 29.9 Hg
- Available 240 V 1 PH, 575 V 3 PH et 380/460 V 3 PH

098673 Edwards screw pump EOSi350 7.5 hp 240V 1 PH
098703 Edwards screw pump EOSi585 10 hp 240V 1 PH
098737 Edwards screw pump EOSi730 15 hp 240V 1 PH
098819 Edwards screw pump EOSi900 20 hp 240V 1 PH

A VACUUM PUMP

Industrial quality . Oil-cooled vacuum pump. These pumps include a wide range of accessories making them safe and efficient.

– Programmable start/stop

– Remote control (cellular or computer)

– Vacuum adjustment based on temperature

– Fully automated.

– Electric engine from 1.5 hp up to 20 hp

Available with Honda gas or diesel motor (NOT SHOWN)

Oiler (NOT SHOWN)

B Moisture traps 1 ½", 2" or 3"

361944 10" x 24" Moisture trap & 1.5" inlet

363597 10" x 24" Moisture trap & 2" inlet

361975 15" x 30" Moisture trap & 2" inlet

363177 15" x 30" Moisture trap with pen switch & 3" inlet

363146 15" x 30" Moisture trap with pen switch & 2" inlet

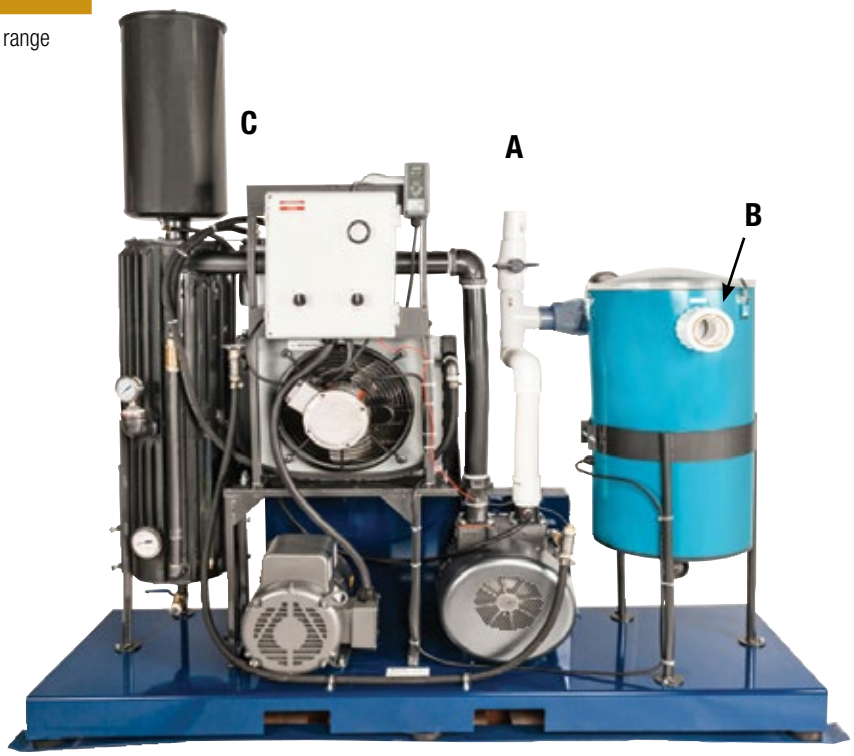
362330 15" x 30" Moisture trap & 3" inlet

363627 10" x 24" Moisture trap with pen switch & 2" inlet

Other moisture traps size available

C "Flood" oil reclaimer

– The FLOOD oil reclaimer lets vacuum pumps operate up to 27 Hg.



D COOLING UNIT FOR "FLOOD" OIL RECLAIMER

– Cooling unit lets vacuum pumps operate up to 27 Hg

– This system necessarily operates with the "FLOOD" oil recuperator

– The majority of oil injected into the pump is reclaimed by the "FLOOD" oil reclaimer and the cooling unit will cool down before it returns to the pump.

– Temperature control controls the radiator fan according to the oil temperature.

– This system works with all oil and water-recirculation vacuum pumps

– Fits all cold oil model pumps (De Laval, Universal, Elmira)

– Injects 2 liters of oil/minute to cool pump for maximum efficiency

ECO-FRIENDLY OIL FOR VACUUM PUMPS (NOT SHOWN)

361852 3.7 L Regular vacuum oil pump $18.60

363955 3.7 L "Flood" vacuum oil pump $20.70

361883 18.9 L Regular vacuum oil pump $78.90

364167 18.9 L "Flood" vacuum oil pump $75.60

372162 18.9 L Radiator oil pump $69.60

D **364815** High performance flood filter $22.50

Airablo

A

A VACUUM PUMP AND DRIVE FOR 800 TO 12,500 TAPS

– Vacuum over 29 Hg
– May operate with hydraulic vegetable oil
– Compact design for space sensitive installations
– 230 volts voltage (available on 3 PH voltage)
– Many sizes available

Includes:

– Vane pump
– Flood - Oil collector
– Speed modulating drive
– Vacuum probe with display
– Radiator
– Check-valve
– Digital thermostat
– Ball valve
– Damp trap with level controller
– Couplings and fittings (accessories can be modified on request)
– Stand (optional)

MINI VACUUM PUMP

For sugar bushes of 800 taps and less. 8 CFM 27'' Hg vacuum pump. Magnetic starter (thermostat not included). Flood Oil collector (temperature indicator not included). Damp trap. Vacuum control. Oil level gauge. Check valve (sap releaser not included). Approved system CSA

B **377839** D&G Vacuum pump 151 flood 3 hp Kit
363511 Gas Honda motor 5.5 hp with electric starter
C **378096** 3/4 hp electric motor with radiator and thermostat
378041 Gas Honda motor 5.5 hp with electric starter and radiator
378072 Gas Honda motor 5.5 hp with manual starter and radiator
371431 8 CFM 1750 vacuum pump head

B

C

VACUUM PUMPS WITH GUZZLER DIAPHRAGM

Economic models for small operations.

500 taps and less until 25" Hg

A **386572** Diaphragm vacuum pump, 115 volts

1,000 taps and less

B **386596** Double diaphragm vacuum pump, 115 volts

F

AUTOMATIC VACUUM CONTROL

408427 Automatic vacuum control

Electric vacuum control, wireless remote monitoring and control for pump station

3.5'' color touch panel screen (HMI)

Can manage master lines and be accessed by phone, tablet or computer

PRESSURE WASHER

Cold water pressure washer

Pressure: 5000 psi

Flow: 5.0 gpm

TS119 1450RPM industrial pump

motor 20hp TEFC 230VOLT 3 phase (also available on 460 and 575 3 phase)

50 'hose

Many more models available

ECONOMIC SERIES

400+ GALLONS ECONO

A R/O 400+ GPH ECONO JUNIOR, ECONOMIC SERIES

For 1,500 - 2,500 taps

– 1 membrane 8” x 40” & 1 membrane 4” x 40”
– $\frac{1}{2}$ hp feed pump
– 3 hp pressure pump
– 1 recirculating pump $\frac{3}{4}$ hp
– Low amps 22 A.
– Complete and easy to operate
– Stainless steel frame
– Wash tank
– Flow meter
– Dial thermometer
– Automatic shutoff when sap tank is empty
– Instruction panel with pictograms
– Set of 3-way valves for installation
– Stainless steel casings for membranes
– Starting at 400 gallons/hour
– Econo model available up to 20,000 taps

PERFORMANCE CALCULATIONS ARE BASED ON SAP AT 55°F, CONCENTRATED FROM 2 - 8 BRIX

ECONOMIC SERIES 1 600 GALLONS

A ECONO MODEL R/O, 1600 GALLONS

– With 3 membranes, 8” x 40”
– 1 feed pump, 5 hp
– 1 (multistage) pressure pump, 7.5 hp-220V high performance
– 1 recirculation pump, 1.5 hp on the third membrane
– Digital thermometer
– Flow meters
– Stainless steel vessels for membranes
– Set of 3-way valves for installation
– Wash tank
– Automatic shutoff when sap tank is empty
– Stainless steel frame
– Instruction panel with pictures

DOMINION & GRIMM OFFERS THE POSSIBILITY TO UPGRADE TO THE PARALLEL SERIES FOR THIS MODEL

LX SERIES

LX-1600 MODEL

YOU DESERVE STAINLESS STEEL

10 new models of R/O, 400 to 3000 GPH

All made of Stainless-Steel including pipes and butterfly valves

Sequential pump start

Digital Temperature indicator

Each membrane has its own flow-meter and sampler.

LX SERIES

For 5000 to 20 000 taps

- Simplified timer 0 - 60 minutes
- High temperature indicator light
- Pump motor overload warning light
- The filtrate, concentrate and drain outlets are equipped with NTP adapters
- An air purge tank is installed on each model
- The 600 and more models are equipped with a 3-cartridge RAM filter except for the 3000 and 3000-B2 models which have a 7-cartridge RAM filter.
- Complete and easy to operate
- Stainless steel frame
- Wash tank
- Flow meter
- Automatic shutoff when sap tank is empty
- Instruction panel with pictograms
- Set of 3-way valves for installation
- Stainless steel casings for membranes

Horizontal version

Prestige Ram Edition

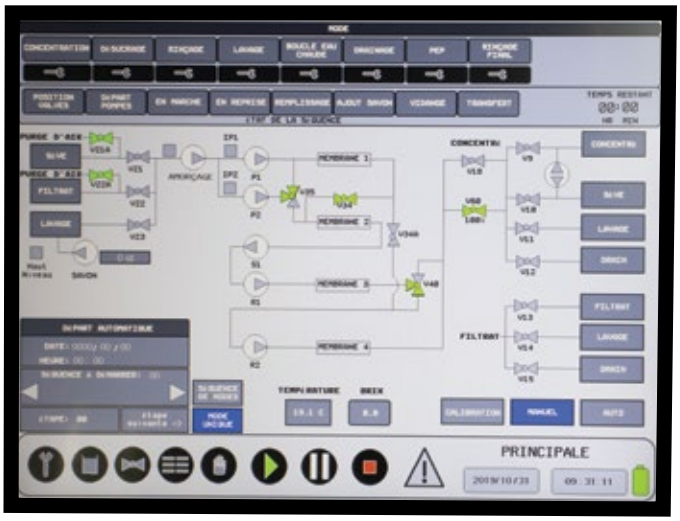
FULL AUTOMATED "PRESTIGE" R/O RAM EDITION
WITH 1000 GALLONS HIGH BRIX

AUTOMATED CONTROL OF BRIX DEGREE

A FULL AUTOMATIC 600 GPH / 1000 GPH R/O

- 600 GPH or 1000 GPH models
- High Brix R/O (over 20 Brix)
- Full automatic model
- Daily schedule programmable to save labor
- No labor required after R/O started
- 6 choices sequences to program the automate
- Remote start (option)
- The full automatic R/O can manage your tank by mobile, tablet, or computer (option)
- Automatic soap injection
- Multi-stage pump 7.5 hp stainless steel
- Recirculation pump 3 hp stainless steel
- 3 stainless steel RAM filter cartridges

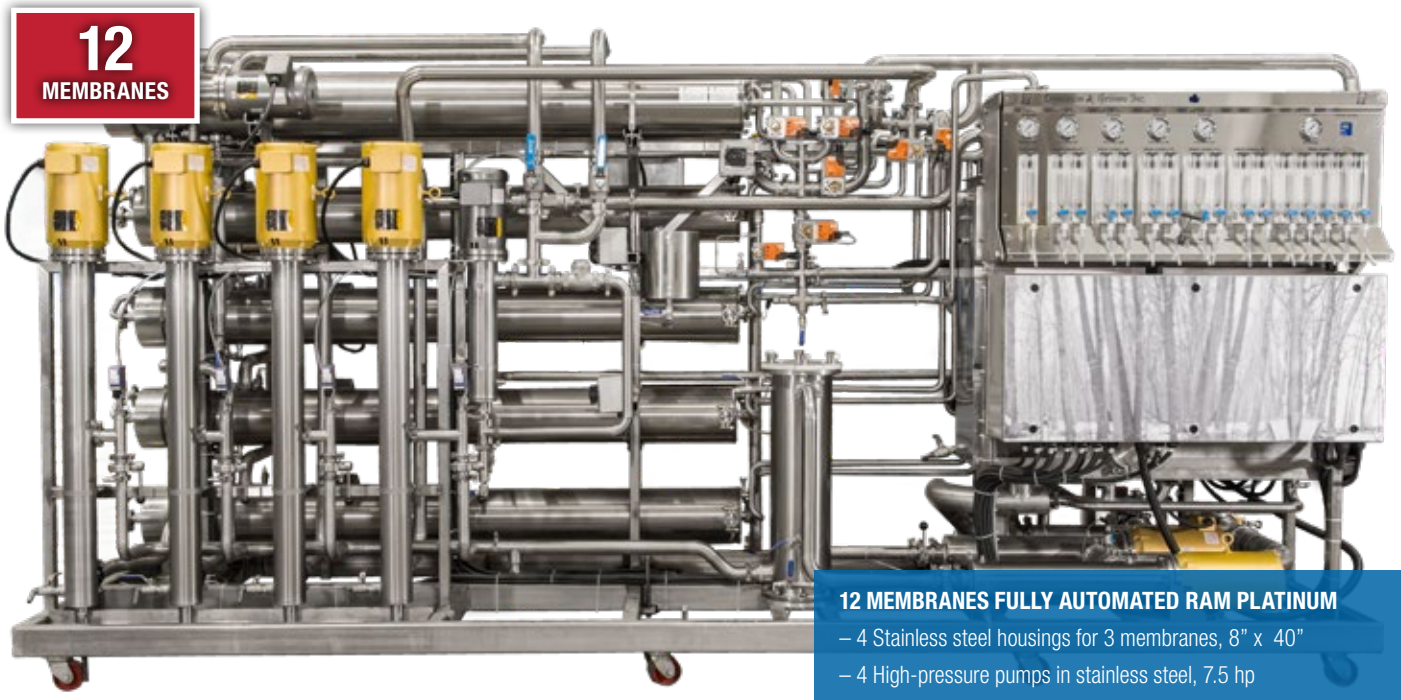
D&G, PIONEERS IN THE FIELD OF OSMOSIS AUTOMATION WITH MORE THAN 10 YEARS OF EXPERIENCE.



SCHNEIDER TOUCHSCREEN INTERFACE

- D&G R/O systems with touchscreen control: advanced technology
- Choose the selected mode on the screen and the machine will start in that mode
- Schedule 1 day without adjusting or making changes to the manual cycle
- Requires no labor after it is started
- 2 automation versions available
  - Advanced automation 2021
  - Advanced automation PLATINUM 2021

Prestige Ram Edition



12 MEMBRANES FULLY AUTOMATED RAM PLATINUM

- 4 Stainless steel housings for 3 membranes, 8" x 40"
- 4 High-pressure pumps in stainless steel, 7.5 hp
- Feed pump in stainless steel, 7.5 hp
- Most efficient on the market (150 Amps / 220 Volts)

FULLY AUTOMATED RAM PLATINUM

The only truly automated and flexible reverse osmosis.

- Programmable cycle sequence. 10 different programmable and flexible sequences each comprising 14 cycles.
- Stop, start and arrangement of cycles according to the conditions set by the operator
- Model with high concentration (20 Brix and more) available
- User-friendly and intuitive Schneider touchscreen on mobile console.
- Autonomous, no connection to external servers required
- Remote access to all device functions and controls (PLC)
- Platinum model available with 1 to 28 membranes
- All impellers are made of stainless steel
- Feed pump in stainless steel, 7.5 hp
- Stainless steel vessels
- Stainless steel plumbing
- All electrical and automation components are from Schneider
- Available in 4 models:
  - 1 – Full automatic Platinum
  - 2 – Full automatic
  - 3 – Semi-automatic
  - 4 – Standard

Mountain 2.0

28 MEMBRANES

HIGHEST PERFORMANCE IN THE INDUSTRY
ALSO AVAILABLE FULLY AUTOMATED

OSMOSIS, 28 MEMBRANES

3 x 10 hp feed pumps with variable speed “drive” starter
6 x 10 hp pressure pumps with variable speed “drive” starter
6 recirculation pumps 5 hp
3 cylinders 8‘ x 80”
3 recirculation pumps 3 hp
6 filters with 7 cartridges per filter
4 recirculating pumps 1 ½ hp
TDS reader (conductivity of permeate)
Brix reader 0 - 33 Brix
Concentrate to 25 Brix and more
Entirely made of 304 stainless steel

THE MOUNTAIN MODEL IS AVAILABLE WITH 2, 3 OR 4 PUMPS.

CONTACT YOUR REP. FOR MORE INFORMATION

PH NEUTRALIZATION SYSTEM

WASH WATER NEUTRALIZATION SYSTEM

DO YOUR PART FOR THE ENVIRONMENT

This system provides reliable, flexible, and powerful control for the treatment of wastewater discharged from reverse OSMOSIS. No matter the manufacturer or the model

Allows the neutralization of washing water pH before its release into the environment

Smart control box with easy-to-use touchscreen

Remote management and real-time data consultation

Data recording of all sensors allowing the creation of tables and graphs. Transferable to USB key. Useful for providing reports required by environmental authorities.

Integrated management on automated D&G Osmosis

Piping entirely in stainless steel

Completely autonomous

Complètement autonome

SPORTSMAN 80 - 160 GPH

Ideal to cut in half your volume of maple water to evaporate. For 800 taps and less.

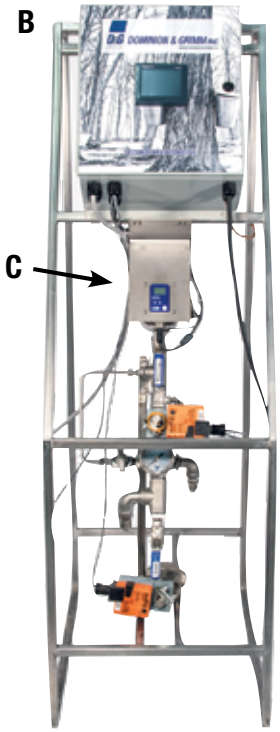
– 1 diaphragm pump (½ hp)

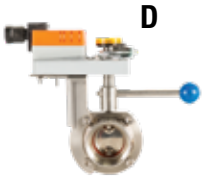
295003 Sportsman 80 GPH

– 1 membrane (4")

A **294969** Sportsman 160 GPH

– 2 membranes ("4")





B BRIX CONTROL MODULE FOR OSMOSIS

The Brix controller for osmosis allows you to manage the Brix concentration of your osmosis. Making it possible to maintain a constant Brix level

– Suitable for all conventional osmosis regardless of the brand

– Continuous reading of the sugar level with permanent display

– Allows high data accuracy and time savings

– No manual sampling required

– Can be managed remotely with a smartphone, computer or tablet (option)

– Suitable for all brands of conventional osmosis

– Schneider PLC

C ATAGO REFRACTOMETER 0-33 BRIX

126543 Atago refractometer - CM-BASE (A) - 0 - 33 Brix

D AUTOMATED VALVES FOR TANK

– Full automatic R/O can manage your sap tank and permeate tank

– The computer manages the electric valves of your tank with sap level detector

– Butterfly valves of 1.5" to 3"

E EXPANSION KIT FOR R/O

292071 Econo Expansion kit with 1.5 hp recirculation pump. Also available with 3 hp recirculation pump

SEDIMENT STRAINER

A **131356** Y shaped 2” sediment strainer

B **131370** Y shaped 4” sediment strainer

– Entirely made of stainless steel
– 1.5" and 3" adapters available

C MEMBRANES HYDRANAUTICS, ESPA4-LD

485237 4” x 40” Membrane

360404 8” x 40” Membrane

High-speed membranes designed to concentrate high Brix.

STORAGE HOUSING FOR MEMBRANES

480188 2" foam (10/pack) $27.10

TUBES FUSION

– Process to combine tubes and fittings
– Fusion bonding of endings

Advantages:
– Eliminates leaks
– Protects tubing by creating a shell against the weather
– Increased output and performance
– Saves time and money on labor

8 easy electrofusion steps:
– After flattening them, align the ends of the tubes
– Set the welding by adjusting the heat
– Melt the material by joining the ends
– Prepare the tubing surface for better adhesion of the fusion and electrofusion fittings
– Screw the saddle on the tube **(B)**
– Insert the coupler on the saddle **(C)**
– Activate fusion using the scanner **(D)**
– Let the fusion cool down

5/16" - 3/16" T-PLUGS

510649 5/16" long T-plug, black $0.37

510670 5/16" short female T-plug, black $0.27

NEW

511349 5/16" T-plug, with enlarged gas chamber, black $0.38

510656 5/16" T-plug, compatible with CDL's spouts, black $0.27

508929 3/16" universal T-plug, black $0.29

510809 3/16" - 3/16" - 5/16" T-plug, black D&G $0.29

511325 5/16" blocked on left long T-plug, green $0.39

511332 5/16" blocked on right long T-plug, green $0.39

510601 3/16" - 3/16" blocked long T-plug, green $0.30

510441 5/16" - 5/16" - 3/16" T-plug cap, black..... $0.29

479205 3/16" blocked on left long T-plug, green $0.39

479212 3/16" blocked on right long T-plug, green $0.39

508905 3/16" long T-plub, black $0.28

MANIFOLDS

476235 5/16" manifold with fixed head, black ..... $2.15 – 31/64" drilling

EXCEPTIONAL SEAL

510861 Manifold D&G 5/16" (not assembled) $1.43

Including:

389764 Manifold, D&G 5/16 fixed head

510847 Manifold joint 3/16 or 5/16 WML

510960 Hose clamp 1" and screw – 31/64" drilling

465758 3/16" manifold with fixed head, black .....$2.15 – 31/64"drilling

EXCEPTIONAL SEAL

510854 Manifold D&G 3/16" (not assembled) $1.43

Including:

389795 Manifold, D&G 3/16 fixed head

510847 Manifold joint 3/16 or 5/16 WML

510960 Hose clamp 1" and screw – 31/64" drilling

D&G WML FITTINGS - (WITHOUT MICRO LEAKS)

END OF LINE ELBOW HOOKS

510977 5/16"end of line elbow hook, black $0.48

510663 5/16" long elbow hook, black $0.48

479120 3/16" long elbow hook, black $0.46

479113 3/16" long end of line elbow hook, black $0.47

D&G WML FITTINGS - (WITHOUT MICRO LEAKS)

UNIONS

510786 5/16" union with eyelet, black $0.22

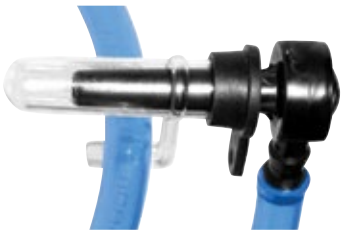
510779 5/16" union with hook, black..... $0.22

510793 5/16" union, black $0.22

465321 3/16" union with hook, black D&G.....$0.22

510908 5/16" - 3/16" union reducer with hook, black $0.22

VARIOUS



510328 5/16" antibacterial reservoir for alcohol sterilization.....$0.27

509032 5/16" 2SP end of line elbow hook, black $0.27

509049 3/16" 2SP end of line elbow hook, black $0.27

463617 5/16" 6-way star fitting, black..... $2.34

465918 5/16" fork, black $0.51

463495 5/16" "Y", black $0.34

465987 5/16" loop with pin, black $0.23

TUBING FITTINGS

474170 $^{5}/_{16}$" spout, black..... $0.33

500831 $^{5}/_{16}$" T-plug cap, black $0.38

501562 $^{5}/_{16}$" universal T-plug, (2 stages), black..... $0.30

500763 $^{5}/_{16}$" cap..... $0.26

MANIFOLDS

465635 $^{31}/_{64}$" single manifold without loop.....$2.15

465611 $^{31}/_{64}$" double manifold without loop.....$2.15

465284 $^{5}/_{16}$" WML union with hook .....0,24$

511011 Sealer cap for mainline (2pieces)..... $0.94

FIXED HEAD

463600 $^{31}/_{64}$" WML fixed head manifold kit..... $2.33

465970 Fastener for universal manifold .. $0.22

ADAPTORS

476136 $^{5}/_{16}$" straight disposable spout, clear.....$0.15

476198 $^{5}/_{16}$" - $^{1}/_{4}$" disposable polycarbonate adaptor, clear..... $0.20

465703 $^{5}/_{16}$" - $^{5}/_{16}$" disposable adaptor, clear.....$0.22
